

India visit- EQUIPE and HARVEST INDIA- TENALI

Sue Pengelly, Ronnie Sussex, Claire Dillamore, Tony Howson

Great things took place during the visit.

Three crusade nights resulted in healings and hundreds saved. Ten thousand people attended the last night.

We visited two churches on the Sunday. The first one we went with a strong prophetic sense of the spirit of Jezebel and a coming judgement of the church. We dealt with the worry spirit and invited repentance in the church as a whole. The same Sunday morning, the president of the church died. By the end of the week, three more people had died! God was moving in judgement towards His people.

Two wells - one sponsored by Chirk Community Church and the other by Warrington Living Waters Community Church- were opened in two villages. In both places there had been no clean water supply and the health of the people had suffered.

We opened two medical camps. In one of the villages where we also preached the gospel and prayed for people, a woman was delivered of seven demons. She had been terrorising the people and spent a lot of time in the cemetery. After the ministry, she was transformed and in sound mind (see Mark 5: 1-15).

Gifts were distributed to the elderly, orphans and Bible College students.

On our next visit to India, we hope to go with a larger team!

Tony Howson
